

## eno/Easiteach Matching Game

### Ross Schools Tech Tuesday

After participating in this professional development, you will be able to use the following functions within Easiteach

- Create a new page
- Use the resources multimedia bank
- Group items
- Size items
- Draw a rectangle and change its fill color
- Copy & paste
- Animate objects

#### Step I - Get Ready

- Open Easiteach.
- Create a new page (bottom left).
- Click Resources (bottom) and choose multimedia bank, click categories (we will use numbers and symbols for our training purposes).

#### Step II– Create Content

- Drag 2, X, 5, 1, 0 onto the page.
- Click edit mode icon and draw a box around the entire expression.

- Click group icon to connect the separate pieces. Now you are able to size it by dragging from the corner.

- Repeat with the answer and more expression/answer pairs.

#### Step III – Create solid rectangles to hide your content

- Draw a rectangle that is large enough to cover your largest item on the page.

- To change the fill color of the rectangle, click the Fill icon, then the Fill color icon, and then click on the rectangle on the page.

- Create more exact size copies of the rectangle by clicking the rectangle, then the copy icon, then the paste icon.

- Drag the rectangles to cover your expressions and answers.

#### Step IV – Animate your game

- Click the Utilities icon, then the Links icon and then the animate tab.

- Select one rectangle and then click Hide/Show on Click.
- Repeat with each rectangle.

#### Step V – Play the matching game

Here is the Easiteach Toolbar to help you keep organized:
